TECHNICAL SKILLS

Programming Languages: C, Python, Java, JavaScript

Frontend and Backend: HTML, CSS, TailwindCSS, Flask, RESTful APIs

Databases: SQL, MySQL, SQLite

Technologies/Frameworks: Git, GitHub, OpenCV, MediaPipe, TensorFlow, NumPy, Figma

SUMMARY

- Computer Science diploma graduate specializing in Frontend Development and full-stack web applications using HTML/CSS, JavaScript, and Python. Experienced in building AI-powered applications, responsive web applications, and desktop software through academic and personal projects. Passionate about developing scalable software solutions and continuously enhancing technical skills.

PROJECTS

GitMaster | *HTML/CSS, JavaScript, Flask*

- Developed an interactive Git learning platform featuring structured lessons and quizzes for beginners.
- Implemented responsive frontend UI components using HTML/CSS and JavaScript to deliver an intuitive learning experience across web browsers
- Designed modular learning content and interactive assessments to improve Git concept retention.

LipVision | *Python, OpenCV, MediaPipe, TensorFlow, NumPy*

- Built an AI-powered lip reading system using computer vision and deep learning techniques.
- Extracted facial and lip landmarks using MediaPipe and OpenCV for visual speech analysis.
- Developed a data preprocessing and inference pipeline for real-time lip movement recognition.

Desktop Voice Assistant | *Python, SQLite*

- Developed a desktop voice assistant capable of executing voice commands and automating system tasks.
- Integrated speech recognition and text-to-speech technology for natural user interaction.
- Implemented features such as web search, application launching, and voice-based assistance.

DoChat | *HTML/CSS, JavaScript*

- Worked on interactive Frontend Development features with HTML/CSS and JavaScript, incorporating theme switching, image sharing, and local data storage.
- Implemented multiple chat channels, user profiles, theme switching, image sharing, and local data storage.
- Designed reusable UI components and interactive features to enhance the user experience across devices.

EDUCATION

Diploma in Computer Science and Engineering

Techno Polytechnic Durgapur

July 2022 – May 2025

– 8.2 CGPA

CERTIFICATIONS

- **Full Stack Web Development (Novitech R&D Pvt. Ltd.):** Completed a comprehensive certification covering HTML, CSS, JavaScript, backend development, databases, RESTful APIs, and full-stack web application development. [Certificate](#)
- **Industrial Internship – Python Programming with Data Analysis (Ardent Computech Pvt. Ltd.):** Successfully completed an industrial internship with hands-on experience in Python programming, data analysis, and real-world software project development. [Certificate](#)
- **Reinforcement Learning (Coursera):** Completed a certification covering reinforcement learning fundamentals, including agents, environments, rewards, and policy optimization.

ACHIEVEMENTS

- **LeetCode:** Solved 50+ Data Structures and Algorithms problems. [Profile](#)
- **GitHub:** Published multiple software projects showcasing full-stack web development, AI, computer vision, and desktop application development. [Profile](#)
